

PIMM™TAG Lite

24hr USB temperature monitoring device, PPT not included

Easy to access PDF & CSV reports with detailed analysis

Plug & Play

Single use / Recyclable

Suitable for Food, Pharma & Healthcare

General

Type	Pre-programmed/Single use
Memory Capacity	28800 readings
Battery	3.0V CR2032 lithium battery
Shelf Life	1 year
Start Mode	Manual Start
Button	Start/Stop
Logging Interval	5 min standard (custom options available)
Run time	Up to 90 days
Display	LED (OK)
Connection	USB 2.0 Connector
Protection	IP67
Certification	CE

Temperature Monitoring

Sensor	Internal NTC
Measurement Range	-30°C—+70°C
Accuracy	± 0.5°C

Packing information

Dimensions	86mm L x 50mm W x 4mm H
Weight	11g
Packing/Materials	Food-safety Plastic Bag/ Nylon+PE

PIMM™ CTM (Constant Temperature Monitoring)

Powered by our PIMM™ technology, each monitored shipment will generate a temperature record collected from the trailer (or container) air. The PIMM™ CTM program is the first monitoring program of its kind that allows distributors to share specific temperature performance data with their customer's / brand owners without sharing every detail of their operations.

Procuo is a software and services company that specializes in Cold Chain Management solutions for the Food, Pharma and Chemical industries. Procuo offers a series of Software as a Service (SaaS) offerings under the PIMM™/iPIMM™ brand, which provides monitoring, product traceability, and end-to-end visibility for our customers and their supply chain partners.
