PIMM™TAG

24 24hr USB temperature monitoring device with PPT included

Easy to access PDF reports with detailed analysis

Thresholds & alerts emailed   Single use / Recyclable

Suitable for Food, Pharma & Healthcare

PIMM™ PPT (Projected Product Temperature)

Powered by our PIMM™ PPT technology, each monitored shipment will generate a temperature record collected from the trailer (or container) air and a highly accurate simulated product temperature based on the thermal profile of the transported good. Similuated product temperatures offer the most accurate representation how fluctuating air temperatures affect the core temperature of product during transport

PIMM™ TAG

STATUS   190600120A

General

Type	Pre-programmed/Single use
Memory Capacity	28800 readings
Battery	3.0V CR2032 lithium battery
Shelf Life	1 year
Start Mode	Manual Start
Button	Start/Stop
Logging Interval	5 min standard (custom options available)
Run time	Up to 90 days
Display	LED (OK)
Connection	USB 2.0 Connector
Protection	IP67
Certification	CE

Temperature Monitoring

Sensor	Internal NTC
Measurement Range	-30°C—+70°C
Accuracy	± 0.5°C

Packing information

Dimensions	86mm L x 50mm W x 4mm H
Weight	11g
Packing/Materials	Food-safety Plastic Bag/ Nylon+PE

Procuro is a software and services company that specializes in Cold Chain Management solutions for the Food, Pharma and Chemical industries. Procuro offers a series of Software as a Service (SaaS) offerings under the PIMM™/iPIMM™ brand, which provides monitoring, product traceability, and end-to-end visibility for our customers and their supply chain partners.
